We do take this on individual merit as we also like to accept students on to our course who have good attendance, are disciplined and well-mannered and have a passion for sport.

Lower Level 3

You will need a grade 1 in GCSE maths and a grade 2 in GCSE English (Equivalent to 2 A-Levels over 2 years). Students on this course will have to retake their maths and English GCSE exams.

We do take this on individual merit as we also like to accept students on to our course who have good attendance, are disciplined and well-mannered and have a passion for sport.

At Eastwood CFC we want to create an environment that nurtures students and not only develops them physically and technically but also academically and emotionally.

We believe that the development of the person is as important as the development of the footballer.

Unfortunately many players will not go on to become professional footballers and we want graduates of our academy to feel equipped and ready to tackle the challenges that lie away from the football field.

We have a set of **ARCH** values that will be the foundation of everything we do and what our philosophy will be built upon.

We believe there are some key skills that we must **ARM** our children with in order to be successful not just in football but in life.

We want everyone in our organisation to have the drive to fulfil their potential and become the very best version of themselves. We value striving for excellence.

We believe mutual respect is key to a harmonious and productive environment. We value treating our teammates, opponents, coaches, and officials with respect and dignity, and embrace diversity and inclusion in all aspects of sportsmanship.

We value having the courage to compete with determination, and show resilience in the face of a setback, defeat or injury.

We value being humble and recognise that success is a team effort and it's important to recognise the contributions of all team members.

The ability to adapt to new situations and challenges is an important skill for success. Students who are adaptable are better able to cope with change and respond to new situations in a positive and productive way.

Resilience is the ability to bounce back from setbacks and overcome obstacles. Children who are resilient are better equipped to handle adversity and can recover quickly from setbacks.

Motivation is the driving force that pushes us to achieve our goals. Children who are motivated are more likely to work hard, persist in the face of challenges, and take on new challenges.

The Benfica Way

Sporting clubs worldwide each possess their unique cultures and principles, yet few can rival the distinct character of Portugal's Benfica.

This club has firmly established itself as not only one of the most triumphant and beloved teams within its homeland but also across Europe.

The very essence of Benfica's success hinges on their distinctive approach. From their youth academy to the senior team, the club follows a clear philosophy that places emphasis on qualities like hard work, discipline, and a steadfast pursuit of excellence. This article will delve deeper into the essence of the Benfica approach and examine what sets it apart.

The core of Benfica's philosophy centres around their commitment to nurturing young talent. The club's renowned youth academy, known as Caixa Futebol Campus, is celebrated for its role in developing some of Portugal's most promising soccer talents. It doesn't solely focus on honing players' technical skills but also emphasizes their mental and physical attributes.

Discipline and hard work are also deeply ingrained in Benfica's culture. Players are expected to give their utmost on the field and maintain a high level of professionalism off it. This culture of diligence and discipline has been instrumental in helping the club overcome challenges and achieve success even in the face of adversity.

Furthermore, the Benfica approach extends beyond the confines of the football pitch. The club possesses a strong sense of community and social responsibility, actively engaging in various initiatives aimed at making a positive impact on the lives of fans and society at large.

The Benfica approach represents a unique philosophy and culture that has propelled the club to success both on and off the field. From youth development to captivating soccer and an unwavering commitment to hard work and discipline, these values are deeply ingrained in the club's DNA.

Through interactions with Benfica's seasoned coaches and exposure to European football methodologies, our students will be constantly learning and evolving. This partnership provides a unique platform for them to expand their knowledge, refine their techniques, and gain fresh insights into the ever-evolving world of football.

It's a two-way street of knowledge sharing that elevates the entire Eastwood CFC community, fostering a culture of continuous improvement and excellence.
